Objective
My objective is to obtain a full time job or internship in Information Technology, Information Systems, Business, Marketing, Sales or technology starting the January of 2020.

Education
Georgia Southern University
Bachelor of Science in Information Technology, minoring in Marketing (May 2019)
- South Georgia State College Dean's List
- Georgia Southern University Dean's List
- HOPE
- GPA 3.35
- Senior (104 hours completed)

Experience
Audio/Visual Team Lead (January 2018 - Present)
Georgia Southern University (85 Georgia Ave, Statesboro, GA 30458)
- Provide IT support for the student center at Georgia Southern, along with the set up and running of Georgia Southern events.
- Set up and running includes rigging lights and sound and mixing live audio.
- Manage the schedules of numerous audio / visual assistants.
- With 2 other student team leads, acted as interim AV coordinator(s) for all Audio/Visual activities, events, and so forth.
- Designed technical testing scenarios for AV Coordinator candidates.
- Oversee with AV requests and communicate with clients for university events as well as for events outside of the university.
- Oversee large events with expected attendance in the thousands and ensure they are being set up, run, and taken down in a proper and timely manner.

IT Quality Assurance Analyst Co-op (May 2018 – August 2018)
Gulfstream Aerospace Corporation (171 Crossroads Parkway, Pooler, GA 31407)
- Communicated with Business/ technical testers to schedule testing sessions to ensure applications will function properly in the new Windows 10 environment.
- Oversaw Windows 10 migration application testing with business testers to ensure the validity of the application.
- Validated if applications the status of Windows 10 applications, such as if they passed or failed the testing, and relayed the information to the next migration stage. If an application failed, I worked with developers and packagers to create a solution for the problem that caused an application to fail testing.
- Created and perform test cases for the integration of a third party program that will be used over several platforms including Mobile devices, IOS, Windows, and Android.
- Created regression test cases on engineering based programs to ensure that function properly with the Windows 10 migration. Then integrated those test cases into Microsoft's Team Foundation Server for team collaboration.
- Design and renovate QA Test lab to create a user friendly environment for testing.
- Created Documentation of QA Test lab, specifying ports, layout, and operation of the test lab
- Performed light table testing on documents validate that new versions of software were compliant with FAA standards

IT Quality Assurance Co-op Analyst (August 2017 – December 2017)
Gulfstream Aerospace Corporation (171 Crossroads Parkway, Pooler, GA 31407)
- Re-imaged Gulfstream machines as needed
- Create and perform test cases for mobile applications as they are being developed and/or updated
- Create Test planning documentation on upcoming projects for the business based on the business requirements on what was in and out of scope.
- Perform Regression Test cases on applications mobile and/or PC.
- Collaborate with application developers to specify and re-create, issues found while testing
- Performed light table testing on documents validate that new versions of software were compliant with FAA standards

Engineering Intern (August 2014 –August 2016)
Voith Paper Fabrics (2500 Scapa Drive, Waycross, GA 31503)
- Assist the plant engineer in maintaining and organizing OSHA documentation
- Install, integrate, and replace computers and computer software throughout the manufacturing plant
- Create, update, modify, and correct Microsoft excel spreadsheets and Microsoft word documents to help visualize and assist productivity throughout the plant
- Substitute and oversee all shipping and receiving of products when the position was vacant (over two months)
- Use Oracle based database system for procurement, sales, and distribution.

Leadership experience
- **Technology Student Association (Ware County High School),** Chapter Vice President
- **Vex Robotics (Ware County High School),** Co-Captain
    - 2016 Vex Georgia State Champions
